PrintoCent InnoFest

17-18, 2026 September,
Oulu, Finland

12th PrintoCent InnoFest

17-18 September, Oulu, Finland

The world's largest open innovation competition focused on printed intelligence and electronics.

1.5 days of hands-on innovating and networking, where you can

- ✓ **Develop your ideas** with multidisciplinary experts
- ✓ **Gain insights** into real industry needs and opportunities
- ✓ **Build valuable connections** across technology, business, and design

Open to individuals and teams with ideas, and experts in technology, business, design, industry/application.

REGISTER by May 31 and take your idea further!

Brilliant ideas are born here - some already been commercialized! Maybe yours is next?

6 good reasons to join InnoFest?

- ✓ **Get connected** with top experts in Printed Intelligence and many different industries
- ✓ **Build your network** - 100 people from industry and research
- ✓ **Enjoy** 1.5 days of inspirational, international tech-atmosphere
- ✓ **Explore** how printed intelligence could enhance your idea
- ✓ Possibility to **WIN Printed intelligence start package** to support your idea's next steps
- ✓ **It's all FREE OF CHARGE!**

InnoFest offered a friendly and supportive environment to nurture our idea further.

'The winner of InnoFest21'

Who should join?

- ✓ **New to Printed Intelligence** – Learn, get excited and grow your network.
- ✓ **Start-ups & SMEs** – Sharpen your product idea with hands-on expert sparring
- ✓ **”Old foxes” within Printed Intelligence** – Expand your network and find new partners
- ✓ **Students & researchers** – Take innovations from lab to business

An expert network helped us develop a world-changing solution.

‘The winner of InnoFest22’

PrintoCent InnoFest winners 2021-2025

2025 – Chain Peptides

Real-time wound healing monitored through biosensors and antimicrobial peptide-based smart dressings.

2024 – Pranava

Metabolism analysis based on breathing cycles, enabling data-driven dietary guidance and healthier lifestyles.

2023 – Hidden Power

Embedded power solutions using shielded flat cables to rethink how electricity is integrated into construction.

2022 – The Future Food Factory

Sustainable urban food production concepts enabling efficient and scalable vegetable and protein manufacturing.

2021 –Warming Surfaces

Digitally controlled, ultra-thin heating surfaces integrated into interiors to improve energy efficiency and comfort.
